Test Progress Report

For CompTerra [Version 0.1.1]
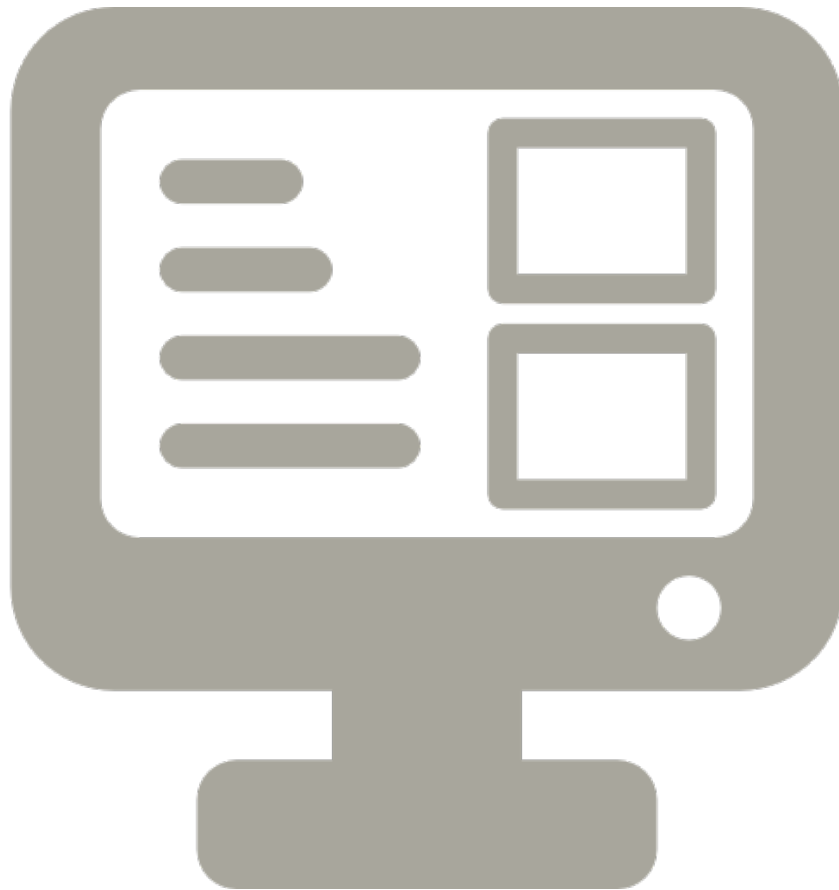

Version	Date	Created By
Version 0.1.1	11/09/2023	Kent Pagaduan

Report Outline:

Introduction

This Test summary report is used to clarify the testing activities that happened for the desktop application CompTerra (version 0.1.1) run on macOS.

The goal of this report is to show the following:
- Status of test cases executed
- Defects found & their status

Test Case Execution Status

These are the test case execution results categorized by status:

Test Case Status	Current Build Results
Total Number of TCs	29
Passed TCs	20
Failed TCs	9
Blocked/Skipped TCs	0

These are the case execution results categorized by priority:

Fail ■ Pass ■
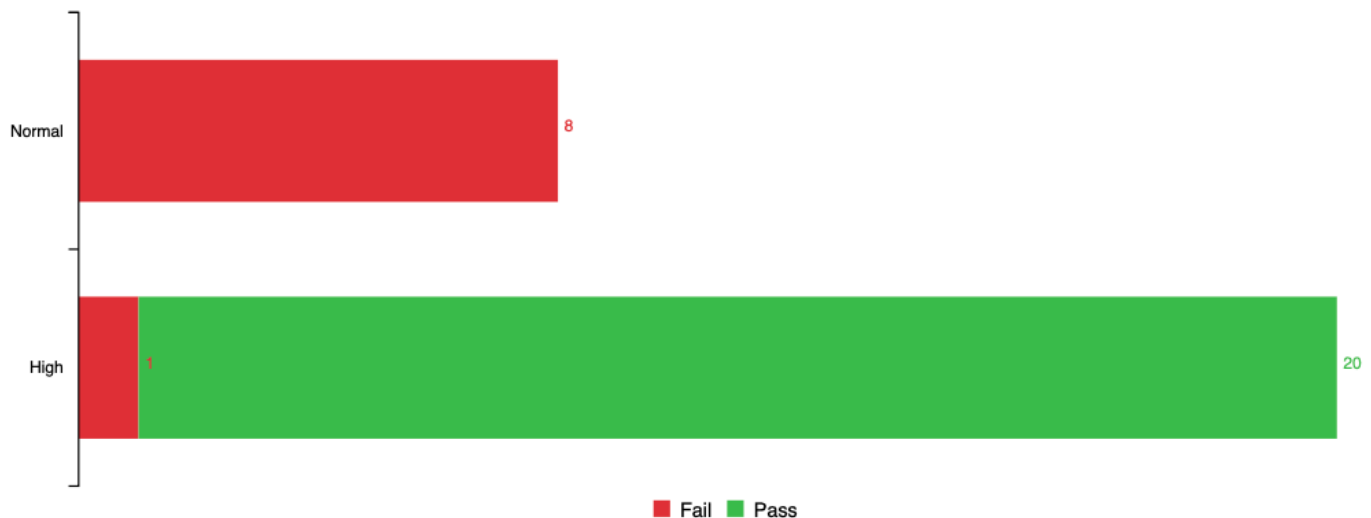

- ● Test Case Execution notes:
  - ○ The application passed 20 of the 21 high-priority test cases. This is a rough indication that the important functionalities are mostly working properly. However, the application failed 1 high-priority test case and 8 normal-priority test cases, which indicates a big need for bug fixing.

Defects Status

This table lists the number of defects based on their priority:

Defect Status	Current Build Defects
Total Number	11
High	3
Medium	1
Low	7

This table lists the number of defects based on their type:

Defect Status	Current Build Defects
Total Number	11
Functional	2
UI/UX	9
Performance	0

- Defects Status notes:
    - Although there were only 9 failed test cases as shown in the previous page, other defects were uncovered from additional exploratory and/or ad-hoc testing.
